

I am very much against the FCC proposal regarding media ownership rules. I STRONGLY support FCC commissioners Michael Copps and Jonathan Adelstein in their votes against these changes. Please act in all possible ways to prevent this proposal from being enacted.

If this happens, it would be a travesty. I will personally make it my business to lobby my Congressman and Senator for the FCC to be shut down and restarted with clearer goals in mind of who they SHOULD be listening to....the Public. Your empirical studies are worthless upon careful review. This is nothing more than a big media grab and you should be lauded for looking at the issue, however, if you approve it, you should be ashamed.
